

Mobile Phone Policy

1. General Guidelines

- Prohibition during School Hours: Students are not allowed to use mobile phones during school hours, including during classes, assemblies, and other school activities, unless explicitly permitted by a teacher for educational purposes.
- Storage: Students must keep their mobile phones turned off and stored in their lockers or designated areas during school hours. Teachers are happy to keep devices safe for learners until after school.

2. Exceptions

- Emergency Use: In case of emergencies, students may use their mobile phones with the permission of a teacher or school administrator.
- If the class is going on an outing, it remains the learner's responsibility to ensure that any mobile device is kept safe. If it gets damaged or lost, Tree of Knowledge staff take no responsibility for it.
